50X1-HUM SECRET/CONTROL/US OF FIGIRES CHLY 50X1-HUM Comment. a unit of the unidentified AAA regiment of the 12th Gds Tank Div left New 50X1-HUM ruppin southwards, possibly for Justerbog.

Comment. The unit entrained is a component of the unidentified artillery division in Petsdam and probably went to Altengrabow. The 50X1-HUM vehicles seen with the troops entrained on 5 March belong to the GOFG or SCC. These vehicles may have been at the railroad station by chance and were not connected with any subsequent entraining operations which possibly involved elements of the aforementioned artillery division. The number of artillery pieces was 12 rather than 16 as previously
